

Picture Light

We choose art or a picture for the love of a piece or to adorn a wall. Specialty believes these works should be shown in the best light possible. The high CRI light source renders the items true while eliminating UV helping the piece maintain its original state. Featuring a multitude of material and finishes, our elegant fixtures are made of tubular extrusions with welded and finished end caps, allowing the fixture to blend with the beauty and refinement of the piece.

Key Points (303)

Housing

- Extruded brass or Aluminum in brushed or polished finish
- Welded end plates with inset swivel or end swivel
- Specifiable wall projections + lengths, as needed per job
- Polished, satin, or antique finish + custom, RAL colors available

Source/Optics

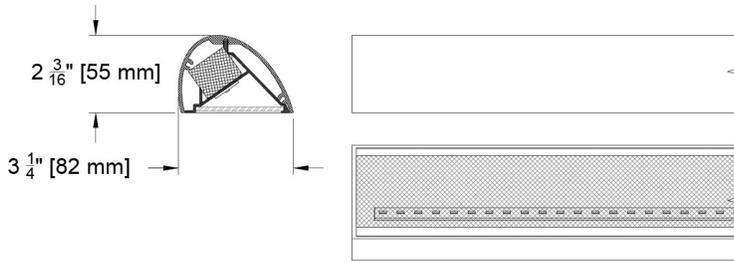

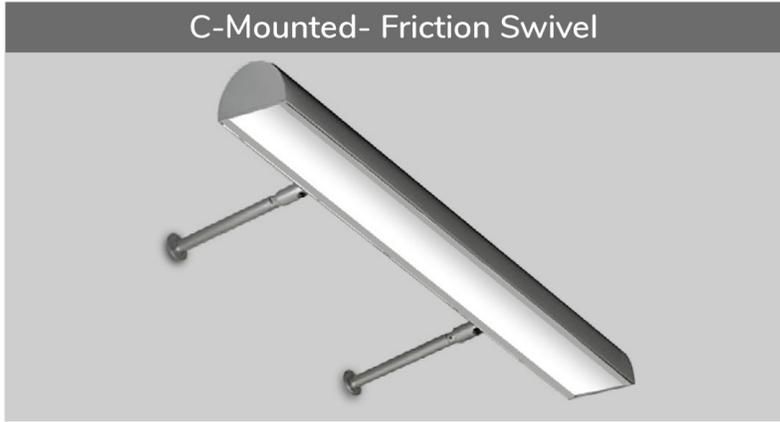

- 10w with up to 741 lumens, per foot*
- 90 + CRI
- 2700K, 3000K, 3500K, 4000K
- L80>38,000 hours at 40C ambient

Driver

- Universal 120-277v
- Integral, dimmable, electronic 0-10v or ELV phase
- Flicker free to IEEE 1789-2015 available

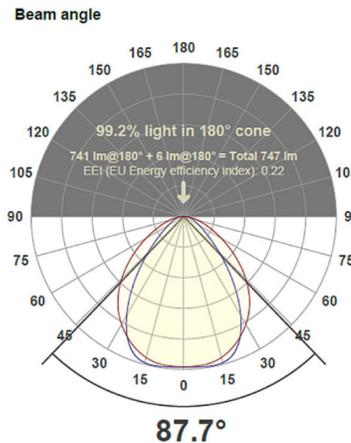

Labels

- US tested to UL standards
