

GrazeFall 2" Baffled Wall Grazer (55mm)

Formerly 811DB and 812 - FH, PH and IH
Recessed Narrow Aperture Linear Wall Grazer

The GrazeFall Family

GrazeFall is our family of professional grade linear wall grazers designed to highlight feature materials and walls, revealing texture through the contrast of light and shadow. This high performance 2" (55mm) continuous low glare baffled wall grazer is intended for walls up to 15 feet in height and can be installed in the ceiling or the floor as an uplight grazer. The continuous system can be specified to custom lengths at 6" increments with the option of flush or regressed baffle positions and a choices of flanged or flangeless trims in the ceilings. The narrow profile fixture is ideally suited to highlight the texture in surfaces such as stucco or brick, illuminate flat surfaces such as venetian plaster, wood, or specular surfaces such as polished stone or stainless steel. The 2" GrazeFall family has additional product offerings, including lensed fixtures and wall mounted surface fixtures.

Key Points (GZ2B-RM)

Trim

- Flange or Flangeless.
- 15 flange color options + custom/RAL# available.
- Black or White baffle color options (Clear is available as a special request but not recommended for grazing application due to beam artifacts).
- Shower Trim is fully sealed and gasketed.
- Sealed walk-over lens for interior up-light applications.

Source Optics

- Up to 345 lm/ft available in static white.
- 90+ CRI and 60+ R9 for static white.
- CCT offerings - 2700k, 3000k, 3500k and 4000k.
- Dynamic tunable white in two ranges: 1800-4000k and 2700-6500k.
- RGBW available with DMX control.
- Veiling Acrylic lens standard - other lens types available

Housing

- Inside and outside "L" configurations are available for corners and wrap arounds.
- Recessed ceiling or floor mounting.
- Damp listed - Wet listed with Shower Trim or IH (up-light) housing
- 2" specification increments (Integral Driver requires minimum of 2').
- Spring loaded snap in / snap out light engine for simple service.

Driver And Control

- 1% dimming standard - 0.1% available.
- 0-10v, DALI, Lutron Ecosystem, EldoLED and DMX options available.
- Flicker Free to IEEE 1789-2015.
- Universal 120v to 277v.

Specialty LINEAR Beamspreads		18° x 50°					Asymmetric ISO CD Plot	
Lens Type	Source	System watts (W/ft)	Delivered Lumens (Lm/ft)	Lumens/ Watt	Peak CD	10% Field		CCT Multiplier
Flush Baffle (BF)	SNL8	8	269	32	780	54°		2700
	SNL11	11	345	30	1008	54°		3000
Regress Baffle (RB)	SNL8	8	230	27	785	47°		3500
	SNL11	11	306	27	1042	47°		

All measurements delivered or derived delivered lumens at 3000K with black baffles. Values are per foot. ISO CD plot based on FB (Flush Baffle)

Ceiling Cutouts and Dimensions

To achieve best results, Specialty recommends to mount the fixture as close to the wall as possible. All drawings show closest possible mounting condition. Ceiling blocking is required and shown with a "X" in a box as a reference. Blocking will vary based on construction conditions and should be detailed on submittal drawings to define construction method and final wall offsets.

Photometric Table All data is based from goniometer measurements of production representative product. All lumen values are delivered or derived and can vary +/- 10% from LED manufacturer rated flux range. Measurements at 3000 CCT with black baffle. All photometry is used with a veiling acrylic (79A) lens. Other lens selections will modify the lumen output and exact beam spread. If photometry is required with a specific lens treatment contact your regional sales manager for a special measurement.

Specialty LINEAR Beamspreads			18° x 50°				Asymetric ISO CD Plot
